

Aarav Vaswani

Bellevue, Washington - (425) 531-2273 - aarav.vaswani@gmail.com

I am a driven student interested in robotics, electronics, and business. Throughout the 2 years that I have been in high school, I have been a part of the Saints Robotics FRC team, while mentoring FLL teams and taking the most rigorous academic courseload available to me, as well as competing in business events. My ultimate goal is to have a positive impact on the world through innovation and entrepreneurship.

ACADEMICS

Interlake High School

IB Diploma Candidate

2025-Present

GPA: 4.0 / 4.0

Advanced Placement Exams

World History (5), Calculus AB (5), Physics C Mechanics (5), United States History (5)

International Baccalaureate

HL Physics, HL Business Management, HL Analysis and Approaches

ACTIVITIES & LEADERSHIP

Saints Robotics

Vice President

Responsible for co-leading and managing an 80+ member team, with a \$40,000 annual budget across mechanical, programming, and outreach sub-teams. Support strategic planning and team operations as the team prepares for the current competition season.

Control Systems Officer — Electrical

2025-2026

Responsible for the design, wiring, and maintenance of the robot's electrical control systems, as well as teaching and managing 10+ members. Worked with one co-officer, as well as other sub-teams.

Technician — Competition

2026-Present

Quick thinking and decision making for fixing the robot in between matches during competition. Included both mechanical and electrical fixes, as well as management of team resources simultaneously.

NEEMO

Co-Founder

Co-founded a business focused on long-range RFID tracking of parts within robotics workshops. Generated \$1,000+ in revenue in a month upon opening. In charge of the product technical development

Makers (3D Printing) Club

Co-Founder & Officer

2025-Present

Co-founded a school club focused on creating a community centered around 3D design and 3D printing, as well as creative projects. Brought in about 50% of the non-officer members.

DECA

Competitor

2025-Present

Participated in entrepreneurship competition - advanced to the State competition.

VOLUNTEERING

FIRST LEGO League (FLL) mentor

Mentor

2024-2026

Mentored 15+ younger students in 2 FLL teams, teaching fundamental engineering skills and practices. One team made states, other made Greece invitational.

SKILLS

- Electronics: Advanced in both micro and macro electronics. This includes working with larger components as well as designing and building circuits.
- 3D Design: CAD modeling through Onshape platform.
- 3D Printing: fabrication and prototyping, as well as modifications and large-scale 3DP additive manufacturing.
